## REPORT OF SCHOOL BOARD.

As time passes along it has brought another financial year of town affairs to its close. And it is expected at this season that the School Board shall render an account of their stewardship; therefore, we submit the following for your consideration. Now, we do not claim perfection. Neither do we believe it is possible to be absolutely perfect in any branch of service. Nevertheless, as your agents and servants we have endeavored to perform the duties of the office as we were shown to the best of our

ability, for we feel a deep interest in the education of the children of today, realizing that their school days will soon be over, and when they must take the places in the world which is now held by those who are older, and then with a substantial book knowledge, which it is their privilege to attain, they will be prepared to grapple with the difficult problems of life. It is our desire at all times to place as competent teachers in our schools as possible, and use the money you place in our hands in the most judicial way possible. There is one thing we wish to impress upon the minds of the pupils and parents alike, and that is the constant attendance of your children at school. Those who go one day and stay out two cannot expect to make the advancement as those who are always there during school hours. Now during the year which is to come let us all strive to do the very best we can to make it a profitable school year for all. We give herewith the report of the treasurer of the School Board; also roll of perfect attendance.
